## Build your DREAM TEAM

Players can choose to play one or both DREAM TEAM tournaments;

Players buy-in normally at the casino's cash desk, then, *before starting to play\** they need to register their team at our poker desk;

Every team can have up to 3 members;

Once a player is registered in a TEAM, he cannot change his team for that tournament; he can eventually change TEAM to play the second tournament;

Both tournaments are played like normal Bounty Tournaments: every player has a bounty on his head; whenever a player is busted out of the tournament, his bounty is collected from the TEAM of his "killer". At the end of the tournament, a member of the staff will count officially the collected bounties of every team and will draw up the ranking. According to this ranking, the TEAM PRIZEPOOL will be calculated (see Prize pools and Buy-in).

Players not registered in any team will participate anyway in both prize pools;

Players can play the 2 tournaments with 2 different Teams

*\*a player cannot join or change team if he already played one hand.*

## Prize-pools and buy-in

The buy-in of the DREAM TEAM is €35 per player (15+15+5):

- € 15 normal prizepool;
- € 15 team prizepool;
- € 5 tournament fee

At the end of registrations period, a member of the staff will calculate both payouts:

- NORMAL PRIZEPOOL: same payout structure used every day in our daily tournaments;
- TEAM PRIZEPOOL: same procedure used for the normal Prizepool, based on team rankings. TEAM PRIZEPOOL payout structure:

Teams registered	Teams ITM	Payout
from 0 to 5	1	100%
from 6 to 30	3	50% , 30% , 20%
over 31	5	40% , 25% , 15% , 11% , 9%
